^a Annual changes are from December to December and monthly changes are from 6 months earlier at a seasonally adjusted annual rate.

NOTE.—The nontransactions portion of M2 is seasonally adjusted as a whole to reduce distortions

caused by substantial portfolio shifts arising from regulatory and financial changes in recent years, especially shifts to MMDAs in 1983. A similar procedure is used to seasonally adjust the remaining nontransactions balances in M3.

¹ Data are prorated averages of Wednesday figures for domestically chartered banks and averages of month-end data for foreign-related institutions.

² Excludes loans to commercial banks in the United States.

³ Data are averages of daily figures.

⁴ Beginning September 26, 1984 a transfer of loans from Continental Illinois National Bank to the FDIC reduced total loans and securities and total loans by \$1.9 billion, commercial and industrial loans by \$1.4 billion, and real estate loans (not shown here) by \$0.4 billion.

al loans by \$1.4 billion, and real estate loans (not shown here) by \$0.4 billion.

NOTE.—Series for all commercial banks beginning January 1984 are not strictly comparable with data for earlier periods, largely because beginning January 1984 certain obligations of States and political subdivisions are included in loans rather than in other securities.

¹ There are no outlays off-budget under current law in this function.

² Estimates from *Current Budget Estimates*, Office of Management and Budget, April 15, 1985.

³ Not available.

NOTE.—Outlays off-budget under current law are proposed to be on-budget. Starting in fiscal 1985 military retired pay is financed from a trust fund in the income security function. The national defense function includes accrual charges to pay for retirement benefits

earned by currently active duty personnel, and these are offset in the undistributed offsetting receipts (employer share, employee retirement).

Data for all periods in this table are shown on as comparable a basis as is feasible.

Data shown here exclude the transition quarter.
